

MANY PUPILS ON THE HONOR ROLL

It is considered a high honor in school life for a student to be neither absent nor tardy during a term of school but as a rule few pupils are able to sustain a record for regular attendance and punctuality during the entire year. This year an unusually large number of scholars are entitled to be placed on the list of those who have been in their places in the school room promptly everyday of the school year. Constipation.

Mrs. S., aged 28, had been troubled with constipation from childhood, and insomnia for one year, which increased in severity the latter half of the year so that she was on the verge of nervous exhaustion. On examination found torpid liver, deep contractions all along the spine and marked in cervical and upper dorsal regions; third rib turned close lumbar with third lumbar lateral to left.

I gave strong treatments, corrected lesion, giving special attention to liver and bowels in direct treatment to both and to celiac region as well; thus removing impactions; gave special breathing exercises to be taken at night for relaxation. The first month I gave treatment twice a week after that once a week, and sometimes two or three weeks would elapse between treatments. She has gained several pounds in weight and is cured, having taken nineteen treatments.—Cosmopolitan Osteopath.

Who Wants A Baby?

Charles D. Merrill, of Beloit, a dis-

trict superintendent of the Children's Home society, has a nice baby boy of two months that he is anxious to place in some good family. Should any Janesville home want such a baby they should write Mr. Merrill at Beloit at once.

DEATH OF HOWARD W. TILTON

A message was received yesterday morning, announcing the death of Howard W. Tilton, editor of the Council Bluffs Nonpareil. The news came as a great shock because it followed a letter just received from him in which he was planning to visit Janesville soon on a vacation. The cause of his sudden taking-off is not known. His sister, Miss Jennie Tilton, of the Second ward, received a dispatch last night stating that he was very sick and she started for Council Bluffs yesterday morning, but in the mean time, news came of his death.

Mr. Tilton was past fifty years of age. When a boy he spent some years in Janesville, his father being pastor of the First M. E. church. He afterwards went to Appleton and entered Lawrence University, where he graduated with honor, and immediately entered upon the work of his chosen profession—journalism.

For a number of years he was on the staff of the Gazette as city editor. About 1882 he removed to Iowa and became the Iowa representative of the Omaha Bee, which position he held until six years ago, when he assumed the editorial management of the Council Bluffs Nonpareil.

He was a man of resources and of tireless energy and under his wise management the Iowa paper gained a wide reputation for being one of the best inland dailies in the west.

Failing health admonished him from time to time that he was traveling at too rapid a pace, but he never saw a time when he felt that he could stop, and so he worked on until death called him home.

Howard Tilton was a many man. He was more than that because he combined with manliness all the graces of Christian character, that contribute to true greatness. He was one of nature's best noblemen and to know him was to love him.

His everyday work was a finished product and humanity was blessed and benefited by his efforts.

As a friend, he was loyal and liberal to a fault. He possessed elements of popularity, with rare genius and his genial smile and warm hand clasp, was so full of good fellowship that they always served as an inspiration. The world is better for such a life and his memory will be cherished by all who know him.

Besides a wife and daughter, a sister and brother, mourn and to them generous sympathy will be extended. The funeral will probably occur at Council Bluffs on Thursday.

PRETTY PARTY BY THE SENIOR CLASS

Handsome Gowns, Artistic Decorations and Exquisite Music Make It a Social Success.

No prettier dancing party was ever given in Assembly hall than the Senior class party of last evening. It was the closing event of commencement time, with the exception of the class picnic which is to be held next Friday at Idlewild park, and for the members and the friends of the class of 1902 it was a memorable occasion. Cosy corners, artistically arranged with oriental rugs and draperies and illuminated with Chinese lanterns, easy chairs, elaborate and artistic decorations in red and gold hunting, the class colors, with the class motto, "No Success Without Endeavor" and a reproduction of the class pin forming a conspicuous part of the decorations together with the banking of the orchestra stand with green foliage and potted palms transformed the large dance hall into a bower of beauty.

It was an effective setting for the fair young ladies and their manly escorts, the party being a full dress affair. The gowns worn by the ladies were handsome and the many beautiful tintings blended into a picture of harmonious coloring, with the black evening dress of the gentlemen in effective contrast. The crowd was just a pleasant size for a comfortable dancing and included about one hundred couples of the young society set. Smith's orchestra was at its best and furnished some of its choicest music, while four electric fans added to the comfort of the dancers.

Great credit for the success of the party is due to the committee of arrangements, consisting of Dean Bemis, Ross Bump, William Fox and Lester Stang. The young ladies who had charge of the decorations, under the direction of Dean Bemis, were Misses Louise Merrill, Elisabeth Graylyn, Isabelle MacLean, Mary Stevens and Isabelle Menzies and they were ably assisted by the other members of the class.

MINNEHAN-BURKE

A marriage, the announcement of which will be a great surprise to the friends of the contracting parties, was solemnized at the residence of the bride's father, when Miss Margaret Minnehan became the wife of Fonda Burke, the principals being well-known young people of this city. The nuptial knot was tied by Rev. Father Flaherty, of Rockford, the bride and groom having quietly left this city early this morning. The bride has resided in this city for many years and is popular with a wide circle of acquaintances. The groom has a host of friends, being a gentleman of genial personality.

F. W. Eckes was a visitor to this city from Eckerton yesterday.

JUDGE LYNCH WAS JURIST IN CHARGE

Method Justice is Meets Out to Carolina Blacks—Goes Back to Barbaric Days

Mr. C. M. Fleek, a former resident of Janesville, at present, making his home in Salisbury, N. C., has written the Gazette, enclosing a photograph of the double lynching of two colored boys on June 11 for the murder of a white woman.

The picture is interesting in the fact that it shows just how justice is meted out from the southern standpoint and revolting, when examined in detail and the bodies of the two young blacks are seen hanging as they were left by their murderers after they had satisfied their revenge.

Mr. Fleek states that all trains on the railroads passing by the tree on which the boys were hung stopped for five minutes and gave the passengers, an opportunity to view the boys' sight.

The boys were taken from the county jail by a mob of three hundred people and without any trial or hearing were strung up in the air and then shot at by the crowd. One body was riddled by twenty bullets and the other was shot five times.

Clippings are also enclosed showing that the sentiment of the people of that vicinity favored the lynching and that they were so wrought up over the matter that they had decided to buy a pack of blood hounds to hunt bad "niggers" in the future as they did in the ante-bellum days.

Profits from Berlin's Gas-Works.

Last year the municipality of Berlin derived a profit of more than \$3,000,000 from the city gas works, which represent an investment of about \$15,000,000. Much of the profit came from such by-products as coke, tar, ammonia—in fact it may be said that the entire expense of maintaining the gas works was paid from the manufacture and sale of these articles, so that the direct receipts from gas were almost clear gain.

Producing Guttapercha.

The government of the Malay peninsula is planting guttapercha trees on a large scale, and it will not be necessary to cut them down, as guttapercha can now be extracted from the leaves and twigs without injury to the trees.

American Gunboats Built in Japan.

A Japanese paper reports that the United States government has ordered six gunboats to be built by the Japanese Uruga Dock company. They will be used for the coast protection of the Philippine Islands. The price of each is between 150,000 and 200,000 yen, or \$75,000 to \$100,000.

Fire In or Out.

"Henry," said Mrs. Ownhome, "the fire is out in the furnace."
"My dear," replied her husband, "what you say is impossible. If the fire is out, it can't be in the furnace; and if it's in the furnace it can't be out."

And Henry was so pleased with his own wit that he made the fire without swearing even once.—N. Y. Herald.

RAYMOND GIVES A GREAT SHOW

There Will Be Plenty of Fun on the Myers Grand Stage All This Week.

Plenty of amusement is offered at the Myers Grand every night this week by Prof. Raymond, the famous hypnotist.

For nearly three hours last evening Prof. Raymond worked on a dozen local subjects and kept the audience in roars of laughter.

As a first-class hypnotist Prof. Raymond has but few equals in this country.

He admits carrying two subjects along with his show but aside from these he works on local talent.

Last evening one of the subjects was put under control and placed with his feet and neck over the backs of chairs. A stone as large as five men could lift was placed on his chest and a man tried to break it with a 12-pound hammer.

A dozen blows had been struck on the stone. It could not be cracked and another attempt to break it will be made this evening with a larger sledge.

The show throughout was first class and is most inexpensive as one free ticket is given to every lady who possesses one 30 cent check. Last evening the program closed with putting a young lady into a hypnotic sleep.

She will be awakened at the performance this evening at 8:30. She will be on exhibition in the west window of Smith's Pharmacy from this morning until the evening performance at 8:30 o'clock.

AMENDMENTS TO BANKRUPTCY LAW

Fifteen Changes to Meet Defects That Have Been Disclosed by Experience.

DEFEATS ATTEMPT TO REPEAL

House Votes Against Mr. De Armond's Motion to Wipe Out the Law—Outline of Most Important Alterations to the Measure.

Washington, June 18.—A bill to perfect the bankruptcy law was passed by the House without division. After several hours' debate the test of strength came upon an amendment in the nature of a substitute offered by Mr. De Armond of Missouri, which proposed to repeal the present law. The amendment was defeated by a two-thirds vote of 137 to 65. This took all the fight out of the opposition, and no further trouble was experienced in getting the bill through.

The bill passed amends the law in fifteen particulars to meet defects which, it is said, experience has disclosed. The most important amendment is one to define preference, to meet the supreme court decision in the case of *Pirle vs. the Chicago Title and Trust Company*. In this decision the court held that payment made in good faith after actual insolvency, though in due course of trade without intention of making preference, must be surrendered before the creditor who received such payment could prove the balance of his debt. This, said Mr. Ray, who led the debate for the amended bill, never was intended by the framers of the constitution. Mr. Ray said it was the cause of 99 per cent of the objections of the law.

Four additional grounds for refusing a discharge in bankruptcy also are added. First, obtaining property on credit on materially false statements; second, making a fraudulent transfer of property; third, having been granted or denied a discharge in bankruptcy within six years, and, fourth, having refused to obey the order of the court, or refusal to answer material questions approved by the court.

An additional section was added on motion of Mr. Ray which provided that when a debtor waived his exemptions he could not thereafter claim them under the law of the state in which he lived. In the debate Messrs. Clayton (Ala.) and De Armond styled the whole measure as oppressive and argued for repeal.

FILL IOWA OFFICES.

State Delegation Meets and Selects Men for Vacancies.

Washington, June 18.—The Iowa delegation met to decide upon the federal officeholders in the state. The present officers were nearly all endorsed, with the exception of the collectors of internal revenue. Changes were made in these positions for reasons which did not reflect upon the efficiency of the present officers. The slate as adopted is as follows:

Northern district—United States marshal, Edward Knott, Waverly; collector, J. U. Sammis, Lamar; attorney, E. G. McMillan, Cedar Rapids. Southern district—United States marshal, George Christian, Grinnell; collector, Harry O. Weaver, Wapello; attorney, Lewis Miles, Chariton.

For bank examiner, northern district, E. B. Shaw of West Union, succeeded to the position now occupied by Henry Myer of Elkader. Henry Miller, the bank examiner for the southern district, was retained.

LINCOLN MEMORIAL.

Senate Rejects Mr. Richardson as One of Site Committee.

Washington, June 18.—The Senate rejected the House amendment to the bill for the erection of a Lincoln memorial, and returned it to that body for a conference. The only difference between the two houses is over an amendment which was inserted while the bill was pending in the House upon the suggestion of Mr. Richardson of Tennessee, the Democratic leader. He eulogized Lincoln, and insisted that the board that is to select a site for a memorial should be nonpartisan. As proposed in the bill it is to consist of federal officials, who happen to be Republicans, and Mr. Richardson asked that his party be given representation. Against Mr. Richardson's protest his name was added to the board. The Senate, however, does not want it there and will try in conference to have it removed.

SCHLEY SALARY BILL.

To Get Full Pay of Rear Admiral on Active List.

Washington, June 18.—The Senate committee on naval affairs authorized Senator Hale to make a favorable report upon Senator McComas' bill giving Admiral Schley the full pay of a rear admiral on the active list of the navy. As a retired officer he now receives only three-fourths of the pay of a rear admiral on the active list. The bill was amended by the committee so as to eliminate the preamble reciting that the admiral was in absolute command of the American forces at the time of the battle with Cervera's fleet off Santiago.

Amend Coupler Bill.

Washington, June 18.—The House committee on commerce ordered a favorable report on the Senate bill amending the law relating to automatic couplers, etc., on railroad trains so that its provisions as to couplers, grab irons, etc., shall apply to all locomotives, tenders and cars operated by steam.

It requires statements to be filed annually with the secretary of the treasury to classify all stock into such as has been paid for in cash or its equivalent and such as is usually called inflated or watered stock. All of the second class is required to be assessed by the United States at 2 per cent a year.

Dr. White was called soon after the body was recovered. He worked hard in his effort to restore life. He used an operating knife and that fact gave rise to the report that he cut the throat of the victim. The statement that the community is aroused and that Dr. White was threatened with lynching is not true.

INSURANCE.

That there is such a thing as carrying insurance too far is indicated by the case of Mr. Mulcahy and Mr. Mulhooley. Though they were known to be great friends they were one day observed to pass each other in the street with out a greeting.

"Why, Mr. Mulcahy," a friend asked in astonishment, "have you and Mulhooley quarrelled?"

"That we have not," said Mr. Mulcahy, with earnestness.

"There seemed to be a coolness between you as you just passed now."

"That's the insurance of our friendship."

"I don't understand."

"Why, thin it is this way—Mulchooley and I are that devoted to one another that we can't bear the idea of a quarrel, an' as we are both mighty quick-tempered we've resolved not to speak to one another all day, for fear we dissolve the friendship."—Tit-Bits.

STILL KEEPS IT.

"During a period of poor health some time ago I got a trial bottle of De Witt's Little Early Riders," says Justice of the Peace Adam Brock, of New Lisbon, Ind. "I took them and they did me much good I have used them ever since." Safe, reliable and gentle, De Witt's Little Early Riders neither gripe nor distress but stimulate the liver and promote regular and easy action of the bowels.

A Pathetic Incident.

There is something pathetic in young King Alfonso's inauguration of his majority by the creation of an order of Knighthood bearing the name of that father whom he never saw. For he is a posthumous child and he was not born until full six months after his father's death.

It was purely on the young king's initiative that the name of Alfonso XII, was given to the new order. It had been suggested to the youthful monarch that, inasmuch as the decoration was destined to reward more particularly services to the cause of science, literature, and national instruction in Spain, it would be well to give it the name of Alfonso X, a monarch who, by reason of his profound erudition, was known by the surname of "El Sabio." (The Learned.) But the young sovereign declined to accept the suggestion of his ministers about the matter, and mind up to associate the name of his father, King Alfonso XII, with the decoration.

MISS LAURA HOWARD,

President South End Ladies' Golf Club, Chicago, Cured by Lydia E. Pinkham's Vegetable Compound After the Best Doctors Had Failed to Help Her.

"DEAR MRS. PINKHAM:—I can thank you for perfect health to-day. Life looked so dark to me a year or two ago. I had constant pains, my limbs swelled, I had dizzy spells, and never

MISS LAURA HOWARD, CHICAGO, knew one day how I would feel the next. I was nervous and had no appetite, neither could I sleep soundly nights. Lydia E. Pinkham's Vegetable Compound, used in conjunction with your Sanative Wash, did more for me than all the medicines and the skill of the doctors. For eight months I have enjoyed perfect health. I verily believe that most of the doctors are guessing and experimenting when they try to cure a woman with an assortment of complications, such as mine; but you do not guess. How I wish all suffering women could only know of your remedy; there would be less suffering I know."—LAURA HOWARD, 113 Newberry Ave., Chicago, Ill. \$30.00 for 12 bottles. If above testimonial is not genuine.

Mrs. Pinkham invites all women who are ill to write her for advice. Address Lynn, Mass., giving full particulars.

WEATHER FORECAST.

Probably showers this afternoon and tonight. Fair and cooler Thursday.

WHAT HAS IT TO DO WITH THE CASE?

Gen. Leonard Wood apparently paid about \$10,000, out of the income of the island of Cuba and not out of the United States Treasury, to promote the dissemination in this country of literature favorable to reciprocity for the relief of the sugar planters.

The wisdom or foolishness of this expenditure need not be discussed. Gen. Wood thought he was helping Cuba. His ruling idea has been to help Cuba in every practicable and proper way. He paid the money, or ordered it to be paid, or permitted it to be paid, because he supposed, on the enthusiastic representation of the management of a sort of literary bureau conducted under a pretentious and patriotic name, that the question vital to Cuban prosperity would thus be brought to the attention of the "leaders of thought," whoever they may be, in the United States. The receipted bill for one of the several payments specifies "services in instructing the leaders of thought."

Our own observation of the usual effect of such bureau literature upon the opinion of thinkers, leading or otherwise, inclines us to believe that Gen. Wood might about as well have put the \$10,000 at once into the waste paper basket as to send it indirectly to that receptacle in the form of the Thurberian circulars. But that belief is immaterial. The general thought he was getting at the leaders of thought, and he paid for paper, ink, press work, and the use of Mr. Thurber's mailing list. Mr. Thurber, as we are informed, possesses the names and post office addresses of more than ten thousand pioneers of rationalization. Gen. Wood wanted to reach them, for Cuba's sake, not for his own or for Thurber's or for the Sugar Trust's.

There was no concealment about the transaction. The literary bureau's bills were made out openly to the Military Government of the island of Cuba. This fact may be regarded as positive evidence that the Military Government was conscious of no impropriety in trying to do for the agricultural interests of Cuba precisely what the United States Government does for our own planters when it pays for the dissemination here or abroad of printed statistics and arguments designed to promote American commerce or to aid American industries.

If Gen. Wood transgressed any regulation or principle that should have controlled his acts as temporary administrator of Cuban affairs, that is a matter between him and his superiors at Washington. If he made a mistake in the agency he employed for supposed publicity, that is a matter between himself and his own sense of humor; the fault, if any, appears to belong to a lower jurisdiction than that of conscience.

The discovery of these payments is being used for about a thousand times more than it is worth by the obstructionists of reciprocity with Cuba. How is the duty of Congress to enact the measure demanded by common justice and common sense affected by the circumstance that Gen. Leonard Wood, as the official guardian of the interests of Cuba, paid money for the circulation of printed matter in the hope of reaching and enlightening the leaders of thought in the United States?—New York Sun.

IMPROVED CONDITIONS

Exports of manufacturers show a decided improvement in the record of foreign commerce of the United States for the first ten months of the present fiscal year. The report of the Treasury Bureau of Statistics showing the detailed exports from the United States by articles during the month of April and during the ten months ending with April shows a marked improvement in the record of manufacturers exported. The exports of manufacturers for the month of April, 1902, are four and a half millions greater than those of April of the preceding year, being \$38,961,301, against \$34,416,279 in April 1901, and forming 36.5 per cent. of the total exports in April 1902, against 25.1 per cent. in April 1901. For the ten months ending with April, the exports of manufacturers are \$338,820,809, against \$329,307,623, for the corresponding ten months of the preceding fiscal year, a reduction of about 5-1/2 million dollars for the ten months. This would indicate that the total exports of manufacturers during the full fiscal year which ends with the present month will fall little if any, below those of last year.

The largest increase, however, is in exports of cotton goods, which for the ten months ending with April are \$26,436,379, against \$15,115,561 in the corresponding months of last year and \$20,202,272 in the corresponding months of the fiscal year 1900. This increase in the exports of cotton goods is chiefly to China, to which the exports were largely suspended in 1901, owing to the disturbances then existing in that country, but are also much larger than

those of any earlier year. The total exports of cotton cloths alone to China from the United States in the 10 months ending with April 1902, are 272,439,390 yards, valued at \$13,314,261, against 44,660,272 yards valued at \$2,494,247 in 10 months of 1901, and 164,334,855 yards valued at \$7,810,823 in ten months of 1900.

GEN. LEONARD WOOD.

In another column will be found a very sensible editorial from the New York Sun, on Gen. Leonard Wood, late of Cuba, who is just now the subject of a great deal of criticism on account of some unusual items that appear in his expense account.

Gen. Wood has long enjoyed the reputation of being both honest and intelligent, he has also been credited with a good stock of common sense. People have been slow to believe any reports that reflect in any way on the character of the man.

The statement made by the Sun is substantially correct. The literary bureau established in Cuba for the benefit of the island, is similar on a smaller scale, to the literary enterprises at Washington, supported by our government. The Agricultural, the Treasury and various other departments, send out tons of printed matter every month, for the benefit of the people.

This kind of work is expensive, but it is considered valuable, and no complaint is ever offered. Gen. Wood engaged in the same work in a small way for Cuba, and Cuba paid the bill. He is entitled to commendation rather than censure.

THE CONTEST IS ON.

The caucuses held in Fond du Lac and Marathon counties, Saturday night, furnish indisputable evidence that the campaign between the stalwart and the LaFollette forces is on with its full vigor and that every step of the way will be vigorously contested. In this city, and in this assembly district, the stalwart forces won an important victory sweeping practically everything.

A great deal of Froelich sentiment was developed in this city and throughout the county; the German Republicans expressing their preference for the present secretary of state as a gubernatorial candidate. The delegates thus elected are stalwarts. —Fond du Lac Commonwealth.

The Froelich delegates in Fond du Lac county, will never vote for LaFollette. So that the victory claimed by the conservative republicans is as pronounced as though they were all Whitehead delegates.

The political contest in Rock county is closed, and every body will experience a feeling of relief. It has been a long and bitter strife, destitute of glory, because the contestants were men who should be friends in politics. When the convention settles the question for the state July 17, it will be a good time to bury the hatchet and forget animosities.

W. J. Bryan is invited to lead a fusion of democrats and populists, as their candidate for Governor. He declines the honor, while expressing great sympathy with the fusion movement, and says that his mission just now is to beat Clevelandism.

The Milwaukee business men's delegation, are doing good work, both for the city and state, on the tour that they are making. The city and state should be in closer touch.

The methods resorted to by the administration forces, to win in Dane county, would put to blush the old New York Tammany rule in its palmiest days.

The death by drowning of two of the brightest students at the University, is a sad chapter in the commencement exercises.

PRESS COMMENT.

Evening Wisconsin: The man who with his wife caused amusement by leading a decorated goat along Third street, in the direction of the Union depot, about the time the Davidson theater was parting with its patrons of the evening, may have been the grand lecturer of a secret society starting on a tour with an important portion of the lodge paraphernalia.

Why an eastern judge should have sentenced a telephone girl to sixty days in jail "for flirting" over the wires is a mystery, unless he discovered that she wore red hose when she "clim" the pole to do the flirting. HE HAD A PAIN.

A dear little boy whose home is in the Orange in New Jersey, and whose summer home is at Glen Summit, Pa., but whose identity shall not be further disclosed, attended a dame school last winter and, on an occasion when visitors were announced, took part in the exercises in their honor. The exercises comprised recitations by the brighter children and among them this dear little boy was called on. He recited in perfectly good faith the following which he had learned or caught from an indulgent nurse with semi-poetical instinct:

Jane ate cake and Jane ate Jelly,
 Jane went to bed with a pain in her—

Now don't get excited,
 Don't be misled,
 for what Jane had was a pain in her head.

When the youngster told of this to his entirely surprised and some what shocked parents they asked him:

"What did the teacher say?"

He replied,
 "She said nothing. She just turned around and looked out of the window, but the scholars and the visitors wanted me to say it again."

FARMAN-M'INTOSH

The marriage of Frank P. McIntosh to Miss Hattie M. Farman, was solemnized this noon at the home of the bride's parents, Mr. and Mrs. Jewett Farman of Edgerton. Both the young people are well-known in this city and have many friends residing here. The bride is held in high esteem in the community in which she resides and has many qualifications which won for her the respect of all who knew her. The groom is one of the enterprising tobacco men of Edgerton and is a general favorite with all who know him. They will be at home to their friends at their home in Edgerton after August first.

FACTS ABOUT LONDON.

In London a child is born every three minutes and a death is registered every five minutes. The city contains, 700 railway stations, 6,000 omnibuses, 7,000 hansoms, 14,000 cabs and 7,000 tram cars. Daily a million persons travel on underground railways. Eleven railway bridges span the Thames. Four thousand postmen deliver 10,000,000 letters weekly, walking a distance of twice the circumference of the globe. There are 10,000 miles of overhead telegraph wires and the number of telegraph messages received in London last year was over 6,000,000. Ninety million gallons of water are consumed daily. —Great Round World.

Baron Wallburg, son of the late Archduke Ernst by a morganatic marriage, who has been prominently before the public in connection with actions against his father's executors has become a head waiter at the Cafe New York in Budapest. Being penniless, and having a wife and seven children to support, he says the step became necessary.

Wallburg told an interviewer that he saw nothing dishonorable in taking tips, this being the form in which the waiters earn their wages. Wallburg is proving an excellent advertisement for the cafe. —London Leader.

As Senator Spooner was leaving the White House the other day after attending the conference of senators summoned by the President to talk over pending legislation, he was asked to tell something of what had occurred. The Wisconsin senator protested that he had not been called to the White House by the President. "I came entirely on my own hook," he said.

"Yes, I have no doubt," remarked one of the newspaper men, "but I dare say it was the Presidents line." —Brooklyn Eagle.

White House Is Cheerful.

With a thought to solid comfort, the architects of the White House planned an open fireplace for almost every room in the house, but not since the furnaces were put in years ago have the open grates been generally used until the advent of President Roosevelt and his family. Mrs. Roosevelt always has open fires in the rooms in which she receives her guests on reception days, thus giving the otherwise beautiful but unhomelike rooms a great air of cheerfulness. —Washington Letter.

Saengerfest Ends.

The first prize in the singing contest, a silver laurel wreath, was awarded to Helvetia Maennerchor of Toledo, Ohio.

BY SPECIAL REQUEST

The Interesting Natural Gas Exhibit will Remain a Few Days Longer.

So interesting and instructive has the exhibition of the Champion Oil Burner Co's new invention of heating with natural gas proved, that Mr. Densmore, the company's representative, decided to remain here a few days longer, until Saturday night at 10 o'clock, which will positively be the last opportunity to secure one of these burners at wholesale price.

This will leave but a few days more in which to inspect this wonderful, and at the same time simple contrivance for transforming ordinary kerosene or coal oil into practical fuel. The absolute safety, simplicity, and above all, cheapness, of the new invention, bids fair to revolutionize present methods of heating, and housekeepers will find it a convenience that they cannot dispense with. The exhibition will continue at the Grubb Block on West Milwaukee street, which will be the last of the wholesale exhibition in this city. The selling of the burners will then be left in the hands of a local agent.

LARGE RECEPTION GIVEN YESTERDAY

A BRILLIANT SOCIETY EVENT

Mesdames Child, Crane and Murdock
Entertain Friends with Lav-
ish Hospitality.

Brilliant, indeed, was the ladies' reception given yesterday afternoon by Mrs. C. D. Child, Mrs. Henry Crane and Mrs. H. D. Murdock at the spacious home of Mrs. Child and Mrs. Murdock, 107 South Third St. From two o'clock until seven the large and elegantly furnished parlors were filled with delighted guests who found continual pleasure in the many details arranged for their entertainment.

The receiving party stood in the front parlor, the hostesses being assisted in extending a cordial welcome to their guests by Mrs. Noon, of Marquette, Mich., who is the guest of Mrs. Henry Crane. Mrs. Noon formerly resided in this city and was well known socially and as an elocutionist. Many of her old-time friends were among the guests at yesterday's reception and their unexpected meeting with Mrs. Noon added greatly to the pleasure of the occasion.

The parlors were beautifully decorated with an abundance of choice flowers, many of them sent to the hostesses with the compliments of friends. The air was heavy with the fragrance of pink and white roses banked artistically on the mantels, but perhaps the most effective decoration was that formed by great bunches of brilliant yellow crapeolais. Through these flower-scented parlors floated the strains of music, furnished by the Orpheus mandolin club, which was seated in the large reception hall. The concert program given by the orchestra was unusually fine, the music being exquisite.

An elegant two-course luncheon was served two dining rooms, being devoted to the accommodation of the guests. The decorations in the dining rooms were especially handsome. The larger one was beautified with red roses, ferns and smilax. Ropes of smilax were looped from the central chandelier to the corners of the table and the deep red flowers and glossy green of the ferns and smilax contrasted effectively with the snowy linen. The buffet board was artistically decorated with roses and ferns. The other dining room was daintily with white roses, ferns and smilax.

The hostesses were ably assisted in the entertainment of their friends Mrs. W. B. Conrad and Mrs. Fred Bailey having charge of the red dining room while Mrs. C. A. Sanborn and Mrs. T. O. Howe had supervision in the white room. The guests were served charmingly by Misses Eureka Kimball, Elise Fathers, Margie Barker, Belle Stoddard and Grace Blagden.

The broad porch was an attractive place and cozy chairs and seats invited the guests to social conversation. Here frappe was served, Misses Maude and Edna Murdock presiding prettily at the frappe table. They were assisted by Misses Ethel Pond, Hazel Howe and Ethel Howe and these three little maidens also divided the duty of waiting on the guests at the front door.

The reception was one of the largest and most brilliant successes which ever delighted a Janesville society circle, the perfection of the day, conspiring with the charming hospitality of the hostesses to make the event a pleasantly memorable one. Over five hundred invitations were issued and there were but few regrets.

LOVERS IN PARKS HAD BEST BEWARE

Four-Year-Old Rattlesnake Captured
In One of the Parks—Bite
Most Deadly.

Scores of lovers, who for years past have spent the early and late hours of the evening in the city parks, had better beware in the future.

That most deadly of all reptiles, the rattlesnake, has made its appearance in the local parks.

Last evening a much excited young man made his way into the Badger Drug Co.'s store, having in his possession a 4-year-old rattlesnake, which he stated that he had just captured in one of the parks. He failed to say what park, and before he could be questioned he had left the store.

The snake is over a foot long and is now on exhibition in the window of the Badger Drug Co.

Dr. A. local prominent physician this morning: "If that snake had bitten a person, it would certainly have meant serious injury, if not death to the victim. With rattlesnakes in the city parks, it will mean a death blow to the scores of lovers who each evening flock to these public grounds."

Posters Dashed Around the World.

It is only in the United States that cities allow themselves to be filled with huge poster fences covered with any sort of gigantic daub that men with paint pots can devise. Posters and public advertising signs in European cities are limited in size, restricted in location, and taxed in such a way as to produce a large municipal revenue.

The Maine Dead Remembered.

Secretary Long recently received by express from Chicago a box containing a beautiful wreath of red roses and lilies of the valley, on which was placed a small card, with the following unsigned message: "Kindly take this to the Arlington cemetery and place it on the mound of the Maine dead." Secretary Long directed that the flowers be turned over to the quartermaster's department of the army, so that the wishes of the unknown donor might be complied with.

FIRST ROUND FOR GOLF CLUB MEDAL

SIXTEEN PLAYERS QUALIFY

H. R. King Makes the Lowest Net Score, and Albert Schaller the Lowest Gross Score.

Long grass on and about the course of the Janesville Golf Club, interfered somewhat yesterday afternoon with low scores being made, in the qualifying round for the Richardson medal. The lowest gross score was made by Albert Schaller, who plays scratch and who turned in a card of 47 and 44—91. The lowest net score goes to H. R. King, who had a gross score of 106, with a handicap of 24, which gives him a net score of 82.

The number of members that started in the contest was not large and about all that turned in scores, qualified for the first round match play, which takes place on Tuesday, the 24th, and will cut the number of contestants down to eight.

On account of it being caucus night the club supper, scheduled for last night, was postponed for one week. Quite a number of ladies and gentlemen, however, carried their supper to the grounds and had private picnics.

This animal has had several other experiences of the same character.

MEAD PREDICTS TERRIBLE STORMS

WEATHER FORETOLD BY MAIL

Former Janesville Boy Who is Winning Fame These Days as a Weather Prophet.

Lewis C. Mead, a former well-known Janesville boy, who now makes his home in Deloit, is winning much fame these days as a weather prophet.

Mr. Mead for this month has made out the following prediction:

"Along between the 26th and 28th of this month falls one of the most critical storm periods of the summer; navigation will not only be dangerous on the great lakes, but pleasure parties going to the small lakes may no well to avoid these dates, as this is the full moon period, full moon occurring on the 26th, with the planet Mercury. And if it arrives on schedule time it will reach us on the afternoon of the 26th. After the full moon and Mercury storm period has fully passed away a spell of dry weather may be expected, probably beginning about July 4th, being about the safest and finest period of the summer for lake excursions. I trust that my item may be the means of saving some one from a watery grave."

HARRISON AND HOPKINS FIGHT

Former Defeats Ex-Mayor's Re-election to State Central Committee.

THEN TABLES ARE TURNED

Although Rejected in His Own District the State Chairman is Elected Committeeman at Large, and is Likely to Be Chairman.

For Clerk of the Supreme Court—John L. Pickering.
For Treasurer—George Duddleston.
For Superintendent of Public Instruction—Anson L. Bliss.
For University Trustees—Mrs. Julia Holmes Smith, Samuel S. Maxwell, James E. White.

Springfield, Ill., June 18.—The above is the ticket nominated by the Democratic state convention here. Nominally it was a state convention. In reality it was a fight between John P. Hopkins and Mayor Carter H. Harrison of Chicago.

Incidentally there was some little discussion in the committee on resolutions over the platform, and the conservative element won. No reference was made to free silver or any of the issues of 1896 and 1900, but a concession was given the adherents of Mr. Bryan by a line in the platform praising the principles of Jefferson and Jackson, "as affirmed by past national conventions."

Other features of the platform are as follows:

Anti-trust laws are urged and the Republican tariff is denounced as an aid to monopolies.

A declaration that the Philippines will be given independence, when a stable government is established is wanted.

Equitable tax laws compelling corporations to bear their share of the burden and the doing away with the present taxing system and justice court methods in Chicago are advocated.

Municipal Ownership.
Municipal ownership of public utilities and the referendum on questions of public policy also are urged.

A thorough system of civil service, taking state institutions out of politics, is declared necessary.

A demand is made for the enforcement of the convict labor laws.

The ship subsidy bill is denounced, liberal pensions are favored, and praise is given to the soldiers and sailors who have suffered in their service to the country.

But the Harrison-Hopkins battle permeated the whole convention and was a part of it. Early in the morning at the caucus of the delegates of the First district Mayor Harrison, who was present in person, although not living in the district, defeated Hopkins for election as member of the state committee.

Hopkins Abuses Harrison.
As a result of this Hopkins and Harrison came to almost a personal encounter in the corridor outside of the room in which the meeting was held, and the ex-mayor used some extremely strong language in verbal abuse for the present mayor. It looked for a moment as if the two would come to fistfuffs, but Mayor Harrison kept his temper, while Roger Sullivan led ex-Mayor Hopkins away.

Then Hopkins and his friends announced that while he had been beaten for member of the state committee as a district delegate he would not only be elected as a delegate at large, but would be the chairman of the committee. He kept his word in the first case in spite of the strenuous opposition made by the mayor and his friends on the floor of the convention, and it looks as if he would keep it in the second. An analysis of the new committee indicates that the majority is in favor of Hopkins.

NEW COMMITTEE.

List of Those Who Compose the State Democratic Central Body.

Springfield, Ill., June 18.—One of the last things the convention did was to adopt a resolution offered by Congressman Jett discharging the existing state central committee, and requesting the committee selected to take immediate charge. The new committee will be called in a few days and the indications are that John P. Hopkins will be re-elected as chairman. He has seventeen votes to start with out of a total of thirty-four.

Pilgrimage by Many Christian Scientists Despite Founder's Plea.
Boston, June 18.—Several hundred of the visiting Christian Scientists made pilgrimage to Concord, N. H., the house of the founder of the religion, in spite of her appeal to her followers not to visit her. Had not Mrs. Eddy sent out this appeal, on the ground that she does not wish such pilgrimages to become a recognized feature of "anniversary week" thousands instead of hundreds would have improved the opportunity to call on "the mother."

An Ode to Spring.

There is consternation and woe in Madison Lake, Wis. The sun has disappeared, the joy of life has departed and the waters are choked and muddy with great grimy gobs of gloom.

There is a hurrying and skurrying among the black bass who inhabit the lake—a making of wills; tears, sobs, last good-byes. Mother bass are exclaiming, "Heavens, me child!"

Father bass are facing the future with the resignation of despair, and all because W. W. Loomis and F. H. Hill left here Monday for the lake on their annual fishing trip, upon which as usual, they will catch all the fish in the lake over six inches in length.

Loomis and Hill only exist in a desultory way during the winter. The world has no attractions for them in the spring. But when summer comes around, life suddenly blossoms out into an iridescent dream of frogs and flies and spoon hooks and great-lack bass, so big that it takes two men to tell about them with any success at all.

Every year these two cronies leave business and the vain world behind for a few weeks and hide themselves to Madison lake. There they are distinctly and unmistakably "it."

They have the best fishing-smack on the lakes, the best trained frogs, the most faithful oarsmen, the most successful and insinuating manner of yanking the brunette bass out of his native lair, and above all the most charming and picturesque manner of reciting his obituary in after years.

For fifteen years Loomis and Hill have been the sea lords at Pleasant Point and it has gotten so that when the bass in Madison lake hear Hill's dispassion voice reverberating over the waters and Loomis's peculiar mezzo soprano way of saying things when the tackle snarls, they line up resignedly and wait to be caught by the Davy Crockett's fisherman.

Maybe The Nonpareil will publish a special letter from Madison lake later in the week if its truthless telephone gets into good working order and the snake editor gets an inspiration. Watch for it.—Frolics in Nonpareil.

GERMAN SINGERS TO GO TO PEORIA

Large Delegation from the Concordia Society Will Attend the Saengerfest.

Tomorrow morning at 7:30 o'clock a large delegation from the Concordia Singing society will leave this city for Peoria, Ill., to attend the twentieth biennial Saengerfest of the Northwestern Saengerbund which is to be held in that city June 13-22 inclusive. The Janesville party will go by the way of the Chicago, Milwaukee & St. Paul road to Chicago, where they will meet the rest of the Wisconsin delegation and proceed to Peoria by special train via the Chicago & Alton railway.

This saengerfest is the great musical event of this part of the United States. Singers will be present from all of the German societies in all the states in this northwestern territory and a chorus of two thousand male voices will be heard in all the concerts. The chorus will be under the direction of Rudolph Theodore Reese, the fest director. In addition to the chorus the Chicago Symphony orchestra of two hundred pieces, under the direction of A. Rosenbocker, will furnish music that will delight the thousands of music lovers who assemble at these song festivals.

Concordia society will do its part toward making the affair a great success. Their representatives have been practicing the choruses for several weeks and have had the advantage of Mr. Reese's presence and personal direction. The singers from this city who will take part in the saengerfest are E. O. Smith, Philip Reus, William Klenow and C. H. Kueck, first tenors; C. W. Wisch, C. E. Herman and H. W. Frick, second tenors; Ed. Klenow, George Rentschler, William Ernst and C. J. Pabst, first basses; William Lennartz, E. H. Winney and C. F. Brockhaus, second basses.

Among those who will accompany the singers are Carl Schmoedel, William Funk, Herman Buchholz, Louis F. Knipp and August Baum.

Tay Bridge Disaster.

The Tay bridge at Dundee, Scotland, 10,612 feet in length, and ninety feet above the water level, was partly destroyed by a gale on Sunday, December 28, 1879, while a North British Railway mail train was passing over it. About 3,000 feet of the bridge collapsed, carrying away the railway train with it. Between seventy-five and ninety persons perished. The new Tay bridge was opened for public traffic on June 20, 1887.

Peculiar Custom.

At Venice when any one dies it is the custom to fix a placard before the dead person's house, as well as in adjacent streets, as a sort of public notice, stating his name, age, place of birth, and the illness from which he died, affirming also that he received the holy sacraments, died a good Christian and requesting the prayers of the faithful.

Secretary Root's Dry Irony

Secretary of War Root was inquiring into the reasons why government transports run aground so often in Japanese waters. Colonel Bird made full explanation, laying much weight on shoals and ledges. Mr. Root commented dryly: "I see, I see. The Pacific ocean must be too small for our warships. We must get more searoom for them."

Picture of San Juan Hill.

Vassili Verestchagin, the Russian war painter, who is going to make a picture of the fight of San Juan hill, has been presented to the president to afford him an opportunity of familiarizing himself with the personal characteristics of the man who took such a prominent part in that engagement.

Heir to a Fortune.

At Joliet, Ill., June 18.—Louis Johnson, a retired contractor, has received word that he is heir to a \$50,000 estate in Varberg, Sweden, left him by his sister, Anna Christene Johnson, who recently died there. Johnson has lived in Joliet twenty years.

To Build Home for the Aged.

Champaign, Ill., June 18.—Arrangements have been completed for a home for the aged of Champaign county. The home is to be the result of a provision in the will of the late W. C. Garwood, who left \$40,000 for this purpose.

Finds Two Large Pearls.

Prairie du Chien, Wis., June 18.—Ferdinand Vothe, a local clam digger, found a round white pearl, which he sold for \$700, also a boroque pearl for \$150. Vothe has worked at this industry for three weeks and has made \$900 in that time.

Hawaiian Volcano Active.

San Francisco, June 18.—Reports from Hawaii indicate that the eruption of Kilauea is continuing. The eruption did not amount to more than a rise of lava from the smaller crater of Halemaumau, with sheets of flames.

Bitten by a Mad Dog.

Lexington, O., June 18.—This village is in a fever of excitement. A mad dog, a pet in the family of Mayor Maxwell, bit several persons. Mayor Maxwell and his son, and Claude Dunshoe have started for Chicago for treatment.

Finds \$4,000 and Returns It.

Bordentown, N. J., June 18.—Gen. E. Burd Grubb, former Minister to Spain, left a package containing \$4,000 on a train seat. Frances Cullen, another passenger, found it, sought out the General and returned the money.

When you see one small boy dividing his cake with another, it's a safe bet that a stronger bond than the universal brotherhood of man unites them.—Chicago News.
